

CONNECT BY YERUN

YERUN INNOVATIVE DIGITAL TOOL FOR RESEARCH COLLABORATION AND SUPPORT

Since 2017, YERUN has supported research collaborations among our members. We are delighted to introduce CONNECT by YERUN, a cutting-edge platform designed to support researchers and research management offices by enhancing collaboration and networking, all based on open science principles.

What is it ?

CONNECT BY YERUN is a data-driven web application that recommends potential research collaborations and funding opportunities to each individual researcher in YERUN.

This initiative aims to provide universities and researchers with direct access to information, enabling them to shape their own agendas and funding strategies. The platform is valuable for researchers seeking relevant calls and partners for their projects, as well as for research managers looking for matchmaking opportunities and a central hub of calls and researcher profiles.

KEY FEATURES OF CONNECT BY YERUN:

DYNAMIC COLLABORATION INSIGHT:

Regularly updated overview of ongoing research strengths and collaborations across YERUN members.

COMPREHENSIVE DATA ACCESS:

Historical and current data on EU project participation and publications, enabling quick mapping of expertise within the YERUN network.

MATCHMAKING TOOL:

Easy process for researchers to map YERUN researchers and to find potential partners for funding or initiatives (e.g. YERUN Research Mobility awards).

EU CALLS INTEGRATION:

Access to open and upcoming EU calls, with automated matching to relevant YERUN researchers, helping in long-term funding strategies

How to use it?

MAKE POWERFUL SEARCHES

Search for individuals, but also publications and grants. You can use long texts to find what you are looking for, while still being able to use filters and keywords.

GET SUGGESTIONS

According to the publication abstracts on your profile the app will suggest some more researchers and grants you might be interested in, based on AI text analysis.

EVERYTHING IN ONE PLACE

Access information available on multiple platforms (ORCID, CORDIS, etc) is one easy to use web application.

Before accessing the platform, please ensure that your **institutional email is publicly visible on your ORCID profile**. Without a publicly visible institutional email, you will not be able to access the platform.
