

# AI in Education and You

## Hack the Future of Tutoring

7-14 Nov 2025

### What is it?

An **online** hackathon bringing together **Master's students** (and **selected Bachelor students**) from YERUN universities to explore how AI can reimagine tutoring.

In just **24 hours**, participants will:

- Work in **international teams**
- Explore the challenges of traditional tutoring
- Experiment with **AI tools**
- **Design solutions** that personalise learning, make it inclusive, and improve student engagement

### Who can participate?

- **Master's students** from YERUN universities
- A limited number of **Bachelor students** from YERUN universities will be accepted

### How does it work?

Guided by the **Design Thinking** process, participants will:

1. **Explore** the needs and challenges of tutoring
2. **Define** the most impactful ideas
3. **Brainstorm** creative AI applications
4. **Prototype** their solutions
5. **Pitch** to a panel of experts

### Why join?

- Learn about **AI in education** through webinars & mentoring
- Gain hands-on experience with **innovation & teamwork**
- Receive a **micro-credential** for your participation
- Compete to represent YERUN at the **European DigiEduHack**
- Build an **international network** of peers, mentors, and experts

**Register here**
